

CAUTION:
Static sensitive devices used. To protect the printed circuit board from static electricity, first discharge any body static by touching the ground terminal or wear the grounded strap.

Panasonic
Model No. PSLP1433
Power Supply Unit

INPUT	100-130V/200-240V~, 2.5A/1.4A 50/60Hz
OUTPUT	+40V=2.4A +15V=3.2A +30V=0.73A +15VPT=3.84A +40V=0.4A (BATTERY) 140.4W/156W

CAUTION:
Be sure to cover each slot in which no card is installed with a Blank Slot Cover. Failure to install the Blank Slot Cover may cause electromagnetic interference.

ATTENTION: Do not attempt to service this equipment unless you are a qualified electrician. This equipment is not intended for use by untrained personnel. For more information, please refer to the user manual. Do not touch the internal components. Do not use a vacuum cleaner to clean the equipment. Do not use a high-pressure water spray to clean the equipment. Do not use a high-pressure steam cleaner to clean the equipment. Do not use a high-pressure air stream to clean the equipment. Do not use a high-pressure liquid to clean the equipment. Do not use a high-pressure gas to clean the equipment. Do not use a high-pressure oil to clean the equipment. Do not use a high-pressure acid to clean the equipment. Do not use a high-pressure alkali to clean the equipment. Do not use a high-pressure solvent to clean the equipment. Do not use a high-pressure detergent to clean the equipment. Do not use a high-pressure disinfectant to clean the equipment. Do not use a high-pressure sterilant to clean the equipment. Do not use a high-pressure preservative to clean the equipment. Do not use a high-pressure fixative to clean the equipment. Do not use a high-pressure sealant to clean the equipment. Do not use a high-pressure adhesive to clean the equipment. Do not use a high-pressure coating to clean the equipment. Do not use a high-pressure finish to clean the equipment. Do not use a high-pressure polish to clean the equipment. Do not use a high-pressure wax to clean the equipment. Do not use a high-pressure grease to clean the equipment. Do not use a high-pressure oil to clean the equipment. Do not use a high-pressure paint to clean the equipment. Do not use a high-pressure ink to clean the equipment. Do not use a high-pressure dye to clean the equipment. Do not use a high-pressure pigment to clean the equipment. Do not use a high-pressure filler to clean the equipment. Do not use a high-pressure resin to clean the equipment. Do not use a high-pressure composite to clean the equipment. Do not use a high-pressure ceramic to clean the equipment. Do not use a high-pressure metal to clean the equipment. Do not use a high-pressure plastic to clean the equipment. Do not use a high-pressure wood to clean the equipment. Do not use a high-pressure stone to clean the equipment. Do not use a high-pressure glass to clean the equipment. Do not use a high-pressure crystal to clean the equipment. Do not use a high-pressure gemstone to clean the equipment. Do not use a high-pressure mineral to clean the equipment. Do not use a high-pressure metal to clean the equipment. Do not use a high-pressure plastic to clean the equipment. Do not use a high-pressure wood to clean the equipment. Do not use a high-pressure stone to clean the equipment. Do not use a high-pressure glass to clean the equipment. Do not use a high-pressure crystal to clean the equipment. Do not use a high-pressure gemstone to clean the equipment. Do not use a high-pressure mineral to clean the equipment.
