

AT&T PROPRIETARY Solely for authorized persons having a need-to-know pursuant to Company instructions

AT&T CONFIDENTIAL - DO NOT FORWARD.

Initiated 2020/06/30 12:44:33 Pacific

Unable to obtain position information

This could be a result of the mobile being powered off, out of the service area or in an area where location information is not currently available. We will continue to send updates as agreed.

ITN	██████████
Case ID	XXXXXXXXXXXX ██████████
Mobile Number	XXXXXXX ██████████
Confidence Level	
Longitude	
Latitude	
Radius	meter (Certainty Factor)
Data Source	3G-GMLC

If the data source on your email indicates 4G, these results are presented in decimal format. 3G and Historical results are in DMS (Degrees, Minutes, Seconds format). Depending on your mapping system, you may need to convert these results for accurate mapping.

The results provided are AT&T's best estimate of the location of the target number. Please exercise caution in using these records for investigative purposes as location data is sourced from various databases which may cause location results to be less than exact.

Please note, if no results were returned, AT&T has no available location information responsive to your request. If you see the same historical result more than once in a row, that is an indicator there is no updated location since the prior attempt to locate the target number.
