**AT&T CONFIDENTIAL - DO NOT FORWARD.**

Initiated 2020/07/02 09:39:54 Pacific

**The mobile number was located on 07/02/2020 12:44:17 GMT**

<b>ITN</b>	██████████
<b>Case ID</b>	XXXXXXXXXX ██████████
<b>Mobile Number</b>	XXXXXX ██████████
<b>Confidence Level</b>	
<b>Longitude</b>	██████████
<b>Latitude</b>	██████████
<b>Radius</b>	Location accuracy likely better than 5000 meters meter (Certainty Factor)
<b>Data Source</b>	Historical

If the data source on your email indicates 4G, these results are presented in decimal format. 3G and Historical results are in DMS (Degrees, Minutes, Seconds format). Depending on your mapping system, you may need to convert these results for accurate mapping.

The results provided are AT&T's best estimate of the location of the target number. Please exercise caution in using these records for investigative purposes as location data is sourced from various databases which may cause location results to be less than exact.

Please note, if no results were returned, AT&T has no available location information responsive to your request. If you see the same historical result more than once in a row, that is an indicator there is no updated location since the prior attempt to locate the target number.
