

If a stockholder fails to receive notice of our offer to redeem our public shares in connection with our business combination, or fails to comply with the procedures for tendering its shares, such shares may not be redeemed.

We will comply with the tender offer rules or proxy rules, as applicable, when conducting redemptions in connection with our business combination. Despite our compliance with these rules, if a stockholder fails to receive our tender offer or proxy materials, as applicable, such stockholder may not become aware of the opportunity to redeem its shares. In addition, the tender offer documents or proxy materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will describe the various procedures that must be complied with in order to validly tender or redeem public shares. In the event that a stockholder fails to comply with these procedures, its shares may not be redeemed. See “Proposed Business—Business Strategy—Tendering stock certificates in connection with a tender offer or redemption rights.”

You will not have any rights or interests in funds from the trust account, except under certain limited circumstances. To liquidate your investment, therefore, you may be forced to sell your public shares or warrants, potentially at a loss.

Our public stockholders will be entitled to receive funds from the trust account only upon the earlier to occur of: (i) our completion of an initial business combination, and then only in connection with those shares of our common stock that such stockholder properly elected to redeem, subject to the limitations described herein, and (ii) the redemption of our public shares if we are unable to complete an initial business combination within 24 months from the closing of this offering, subject to applicable law and as further described herein. In addition, if our plan to redeem our public shares if we are unable to complete an initial business combination within 24 months from the closing of this offering is not completed for any reason, compliance with Delaware law may require that we submit a plan of dissolution to our then-existing stockholders for approval prior to the distribution of the proceeds held in our trust account. In that case, public stockholders may be forced to wait beyond 24 months from the closing of this offering before they receive funds from our trust account. In no other circumstances will a public stockholder have any right or interest of any kind in the trust account. Accordingly, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.

NASDAQ may delist our securities from trading on its exchange, which could limit investors’ ability to make transactions in our securities and subject us to additional trading restrictions.

We intend to apply to have our units listed on NASDAQ on or promptly after the date of this prospectus and our common stock and warrants listed on or promptly after their date of separation. Although after giving effect to this offering we expect to meet, on a pro forma basis, the minimum initial listing standards set forth in the NASDAQ listing standards, we cannot assure you that our securities will be, or will continue to be, listed on NASDAQ in the future or prior to our initial business combination. In order to continue listing our securities on NASDAQ prior to our initial business combination, we must maintain certain financial, distribution and stock price levels. Generally, we must maintain a minimum amount in stockholders’ equity (generally \$2,500,000) and a minimum number of holders of our securities (generally 300 round-lot holders). Additionally, in connection with our initial business combination, we will be required to demonstrate compliance with NASDAQ’s initial listing requirements, which are more rigorous than NASDAQ’s continued listing requirements, in order to continue to maintain the listing of our securities on NASDAQ. For instance, our stock price would generally be required to be at least \$4 per share and our stockholders’ equity would generally be required to be at least \$5 million. We cannot assure you that we will be able to meet those initial listing requirements at that time.

If NASDAQ delists our securities from trading on its exchange and we are not able to list our securities on another national securities exchange, we expect our securities could be quoted on an over-the-counter market. If this were to occur, we could face significant material adverse consequences, including:

- a limited availability of market quotations for our securities;
- reduced liquidity for our securities;
- a determination that our common stock is a “penny stock” which will require brokers trading in our common stock to adhere to more stringent rules and possibly result in a reduced level of trading activity in the secondary trading market for our securities;
- a limited amount of news and analyst coverage; and
- a decreased ability to issue additional securities or obtain additional financing in the future.

The National Securities Markets Improvement Act of 1996, which is a federal statute, prevents or preempts the states from regulating the sale of certain securities, which are referred to as “covered securities.” Because we expect that our units and eventually our common stock and warrants will be listed on NASDAQ, our units, common stock and warrants will be covered securities. Although the states are preempted from regulating the sale of our securities, the federal statute does allow the states to investigate companies if there is a suspicion of fraud,
