

The strategy enables an investor to add an incremental return stream to their existing portfolio, and the potential diversification benefit provided by the strategy's historically low correlation to equities. It requires no capital outlay and instead uses an investor's existing portfolio as collateral. The strategy is implemented through a separately managed account (SMA) with complete transparency and daily liquidity.

Harvest is an established leader in managed option strategies. It was founded in April 2008 and has over \$10BN in AUM. The strategy is managed by an experienced team of 15 investment professionals that have deep trading and portfolio management backgrounds and have demonstrated success through the global financial crisis and other market events.

If you have any questions or would like to discuss further, please just let me know.

There are risks associated with investing in this strategy, please see slide 20 of the attached presentation for a summary of risks.

Best regards,
Andrew King
