I have tied out the numbers, it looks to me like everything is essentially correct except for Boies, New Apostolic Church, and Ellin. The numbers attached do not include \$20MM in cash from Epstein and \$30MM from Lindemann.

I also attached the Southern Financial tie-out (through today). There have been significant outflows YTD, even with the \$20MM that came in.

Hi Morgan--

Thanks.

1) I have attached the June and July Statements which show the only withdraws were fees paid to us.

2) Regardless, if the positive NNA for Ellin doesn't count toward our team because it was booked under Ed, why would negative NNA purportedly booked under Ed count against us? He was still here in July.

Thanks for the help,

JJ

JJ,

The negative NNAs for Howard Ellin are from July 2015 which would have shown up in the Q2 2015 scorecard. Please let me know if you believe this negative should not be there and provide copies of your reports and details to assist in answering the issue in a timely manner.

Thank you,

JJ,

According to the GMIS report that account has a positive revenue of \$10,468.79. Can you please let me know where you are seeing a negative revenue so that I can research the issue further?

Thank you,

Understood, would definitely like to understand how that happened so we can be sure the other numbers are correct.

Thank you.

JJ,

Morgan is correct from an NNA perspective on how this works. I am more

concerned about the negative since there does not appear to be any asset outflows

I was an integral part of winning that business and think the team should still get credit.

Where specifically is the negative revenue coming from?

JJ,

The \$5MM was brought in by Ed Finley and although the account was transferred to Paul Morris, Paul does not get credit for assets booked prior to taking over the account. Paul will get credit for business that is booked while the account is under him. Please let me know if you have any additional questions.

Thank you,

That was transposed on my part, apologies. Regardless, that client has \$5MM in NNA for the year and 0 outflows.

JJ,

According to the report I sent you yesterday there is -\$344,824.48 in NNA for this account. I'm not sure where the -433 number is coming from. I've attached the report again with the rest of your line items hidden.

Thank you,

As discussed, Howard Ellin shows as NNA of -433k but his NNA is exactly +5,000,000 (in a discretionary equity IA portfolio). The account is 451305.

Morgan—the oddity here is that -433K is almost the exact amount his account was down market value wise which obviously should never be considered NNA.
