Jeffrey, please see below offers to unwind the short call position only:

For TWTR reference of \$31.60 the cost to unwind is \$1.89/share with a delta of 32%.

This assumes we work our execution and delta adjust price.

There will be a change in IA for the TRS once the call is unwound, as the IA of long TRS + short calls is lower than simply long TRS. We are waiting to hear back from our credit team on what this change would be and will advise.

Regards,

Daniel
