With last week's Fed announcement, the rate on the 9 month variable CD rate is scheduled to increase on Jan. 2 (should be 1.81%). Please let us know if you would like any more info. Thanks

Rich,

Given interest rate expectations, I thought you might find this new floating rate CD product interesting. We're focused on raising new deposits in Q4, so are launching this with a promotional rate through the end of the year. Hope all is well

We are currently offering a promotional 9-month variable-rate Deutsche Bank AG Preferred CD. Please find below our indicative rate, which is subject to change.

Please find attached some additional information on our offering, including an overview of Deutsche Bank AG Preferred CDs.

The minimum deposit to purchase a Preferred CD and receive the advertised rate is \$250,000 (unless you already maintain funds in another Preferred CD and/or a Preferred Banking Account that are equal to or greater than \$250,000 in the aggregate). A penalty may be imposed for early withdrawals
