Important Information about Pricing and Valuations

Certain assets including but not limited to, pooled private investments, non-publicly traded and infrequently traded securities, derivatives, partnership interests and tangible assets are generally illiquid, the value of which may have been provided to us by third parties who

may not be independent of the issuer or manager. Such information is reflected as of the last date provided to us, and is not independently verified.

Prices, some of which are provided by pricing services or other sources which we deem reliable, are not guaranteed for accuracy or as realizable values.

Market value information (including without limitation, prices, exchange rates, accrued income and bond ratings) furnished herein has been obtained from sources that the Bank believes to be reliable and is furnished for the exclusive use of the client. The Bank makes no

representation, warranty or guarantee, express or implied, that any quoted value represents the actual terms at which transactions or securities could be bought or sold or new transactions could be entered into, or the actual terms on which existing transactions or securities could be liquidated.

The current price is the value of the financial asset share, unit or contract as priced at the close of the market on the last day of the statement period or the last available price.

All values provided for structured yield deposits (for example, JPMorgan London Time Deposits) reflect the original deposit amount only.

The current value for Real Estate, Mineral Interests and Miscellaneous Assets may not re

reflect the most current value of the asset.

Valuations of over-the-counter derivative transactions, including certain derivative s-related deposit products, have been prepared on a mid-market basis. These valuations are indicative values as of the close of business of the date of this statement and, except as otherwise

agreed in writing, these valuations do not represent the actual terms at which transactions or securities could be bought or sold or new transactions could be entered into, or the actual terms on which existing transactions or securities could be liquidated as of the date of this

statement. We do not warrant their completeness or accuracy. These valuations are derived from proprietary models based upon well-recognized financial principles and we have, when necessary to calculate the present value of future cash flows, made reasonable estimates

about relevant future market conditions. Valuations based on other models or different assumptions may yield different results. J.P. Morgan expressly disclaims any responsibility for (1) the accuracy of the models or estimates used in deriving the valuations, (2) any errors or

omissions in computing or disseminating the valuations, and (3) any uses to which the valuations are put. Valuations are provided for information purposes only and are intended solely for your own use. Please refer to the trade confirmation for details of each transaction.

At your request, assets may be reflected here even though they are held by a third party unaffiliated with J.P. Morgan. In such case, unless J.P. Morgan otherwise agrees, J.P. Morgan has no responsibility for the verification, valuation, safekeeping or management of those

assets.

Please review your statement promptly and report any discrepancies immediately to an account officer whose name appears on the contact page of this statement.

The distributor of the JPMorgan Funds is JPMorgan Distribution Services, Inc., which is an affiliate of JPMorgan Chase Bank, N.A. JPMorgan Chase Bank, N.A. and its affiliates receive compensation from JPMorgan Funds for providing services. American Century

Investment Services, Inc. is the distributor of the American Century Funds. American Century Investment Management Inc. serves as investment advisor to its respective fund family and receives compensation from that fund family for providing investment advisor and other services.

Important Information Regarding Auction Rate Securities (ARS). ARS are debt or preferred securities with an interest or dividend rate reset periodically in an auction.

Although there may be daily, weekly and monthly resets, there is no guarantee that there will be liquidity. If

there are not enough bids at an auction to redeem the securities available for sale, the result may be a failed auction. In a failed auction, there is no assurance that a secondary market will develop or that the security will trade at or above any other price reflected on statements.

Accordingly, investors should not rely on pricing information appearing in their statements with respect to ARS.

If you have chosen one of the sweep mutual funds, you are notified that positions in the Prime Money Market Sweep Fund represent holdings in the JPMorgan Prime Money Market Fund; positions in the Federal Money Market Sweep Fund represent holdings in the

JPMorgan Federal Money Market Fund; and positions in the Tax Exempt Money Market Sweep Fund represent holdings in the JPMorgan Tax Exempt Money Market Fund.

including options transactions, has been included in confirmations that were previously furnished to you. Upon written request, JPMSI will promptly supply you with the latest such information.

your J.P. Morgan representative for a list of the JPMorgan Funds that impose redemption fees.

To the extent applicable, please read the following disclosures regarding estimated annual income (EAI) and estimated yield (EY): EAI and EY for certain types of securities could include a return of principal or capital gains in which case the EAI and EY would be overstated. EAI

and EY are estimates and the actual income and yield might be lower or higher than the estimated amounts. EY reflects only the income generated by an investment. It does not reflect changes in its price, which may fluctuate.
