[Подробнее](#)Hi ,

This is Lauren with Candid, and thank you for reaching out. If you have already approved your treatment plan, we do recommend proceeding through treatment before getting any dental work completed, if possible. However, if you did not approve your treatment plan yet, we highly recommend getting all necessary dental work done before progressing through treatment, to avoid any unusual movement. We hope this reaches you well, and please don't hesitate to reach out to us with any further questions or concerns.

Best,
Lauren
