Funding NIH grants ?

11:32:51 pm

That is built around peer review and the incumbent networks of power in each field

11:36:40 pm

That's also why smart ppl and ideas are now chasing VC and private equity instead of grants

11:37:12 pm

Have you seen arianna Huffington's new effort? Media driven platform
For health and wellness - money from jack Ma and Jeff Bezos w connections into
Amazon and Alibaba

She wants to talk to me Monday and I will be in NYC

Might be another path to surgeon general in the sense of being the consumer facing
health and wellness guru - like a more evolved dr oz or Oprah but linked to products

Interesting concept

11:39:12 pm

She's got reputation and money and the whole thing dedicated to health and wellness / being on her leadership team and the head doc is cool - jack says I could do Alibaba pop up shops on anything health wellness and sell a zillion products of whatever kind and also as a doc present the evidence. Bezos could do something similar on Amazon.

Both are outside bill space but he likes them

Also - is profitable and builds credibility towards Americas doctor / Presenting best evidence on products and also education on certain topics (like headaches or sleep or obesity or whatever)

Of course I'm still going to work w bill a few months. But maybe start w her right after OR SOONER

More Monday afternoon

2017/03/05

Just left medical advisory . Lots to do . I have zero interest

12:12:38 am

Zero interest in medical advisory? Oh no!

12:17:13 am

Well bill says he has zero interest in doing anything helpful on health or tech for US until trump stands up on international development and aid

12:17:47 am

Will keep pushing but he says his #1 priority is ODA (overseas development aid)

12:18:27 am

I told him the tech play is one that he can pull off where everyone wins and I can help get that started and he says that his "policy package" will depend on what trump does for him

12:19:40 am

What did you learn from medical consortium
???

Call me!

12:21:17 am

Bill also says (just spoke to him) that he wants me to do a learning session for him in
the middle

East on a their health and health tech

12:27:14 am

Also a lobbyist from k&l gates wants to speak w me next week about surgeon general
role - he told me that Geoff Ling (darpa) and Raj Shah (USAID and gates now
Rockefeller) Both recommended me and he would like to spend some time w me.

Head of MGh , Cleveland clinic, Hopkins , mayo all working together. I told them
about you .

12:33:48 am

oC

Thank you

Well glad they are all great institutions and working together

12:35:42 am

Wish BG could get his head around the needs of our country as opposed to
development aid

12:36:03 am

Did you learn anything concrete ? Are they doing digital idea already?

12:36:45 am

Do they have a lead or a strategy?

This guy next week

12:39:51 am

They think everyone should have med records in their phone . Defense dept records different system than VA. Hate intl aid vs US NEEDS . NIH , techno transfer goofy , Grants too difficult. Drugs too addicting etc

12:43:22 am

oC

Med records should be in cloud w homomorphic encryption ability
To get what is needed without putting data at risk but yes ppl should own their own medical records

12:45:42 am

Ok got it let's talk next week

12:46:02 am

Or whenever
