02:34:17 pm

I have told him that. He believes his team are better connected and that Jared and Ivanka are his interlocutors

02:35:39 pm

Jack wants me to help arianna huffington - he invested in her company thrive (so did Bezos)

Her company does half corporate wellness and half ecommerce but she hasn't built out ecommerce

Jack believes there is big opportunity for what he calls a "category" in the wellbeing ecommerce space. He says I have tech skills and doctor skills and wellness sense to help her build that part of the business - basically a JV w Alibaba.

Bezos is hoping for the same thing

02:38:13 pm

Alibaba and Amazon are biggest marketplaces and super interesting opportunity both commercially and intellectually

02:38:42 pm

MW

not my thing , i can add nothing

02:38:45 pm

o

Bezos wants build out "local" and link to licensed docs

02:39:02 pm

(Eventually robot services)

02:39:13 pm

It is a real and credible opportunity for sure.

02:39:32 pm

Chief Medical Officer

02:39:45 pm

Equity/salary and the boss of the JVs w Alibaba and Amazon

02:40:03 pm

Jack says too hard to build these innovations from within Alibaba and has to come from JV

02:40:32 pm

Nice that he thought of me

02:40:43 pm

BG world is so backwards. Makes me sad. Wish there was a better space but for now will keep working on the bgc3 and next steps.

02:41:52 pm

Thanks for your support always

02:42:11 pm

12:32:29 pm

Of course you were right and all the "international development" folks scrambling today. B is preparing to "educate" administration next week on the value of aid overseas.

Here is foundations position

Wish they would approach stuff differently -

This is reagans budget cuts from a zillion years ago EXACTLY trumps

08:24:15 pm

2017/03/17

he should tread carefully, as his free spend will likely be reduced to only us entities . rational explanations do not carry the day. . in the budget as i told you , vet , and mental health. a big big increase and focus. its the world of the strongmen.

11:34:29 am

I send bill an email that this is the time for the Giant 'DAF. to replace the loss of govt funding to projects of his concern. its a no brainer.

11:35:02 am

OC

I told him too

He could save the day by rallying his American "giving pledge" folks to rescue some of the closed programs in the USA

He could also use his own funds

11:39:44 am

His advisers tell him the budget will look very different when approved, that his issues are too important to cut (ODA)

11:43:11 am

Polio and PEPFAR etc

He is not at all interested in mental health but he may consider advocating for Alzheimer disease and has no interest in getting involved w vets.

He may be a little stuck ...

11:45:08 am

His advisers are all Obama-ites and trump haters. Deeply Entrenched.

11:45:39 am

MW

Are there other billionaires that could step in to help?

11:49:56 am

Yes, but they have less uber size giving experience

How can we make him listen? I feel like David and Goliath!!! :-)

His advisers tell him I'm being disruptive and don't know what I'm talking about

11:56:34 am

And putting him at risk

11:56:45 am

I think it really will take trump pushing back on him to make him realize these are different times

11:57:26 am

That might be the only way
