can't trust bayer. but rockefeller of columbia will playh
07:12:46 pm

Do you know ppl there?

I know Greengard at rockefeller but he's super old and old school. He's doing proteomics and has a ton of funding. He will be upset this is disruptive

07:13:57 pm

as you know i used to be on the board. yes of course
07:14:25 pm

Ok well let me work on this stuff some more today. Tmr heading out to see "Boone" and guess who is joining ??? H ROSS PEROT. He's flying me in his plane. Holy smoke. He must be 100.

07:15:37 pm

fund mathematics. . it is the mother load. . for research .
07:16:30 pm

for money its robotics , finantech, biotech. but boring.
07:17:02 pm

do multiple MRI s , of 12 people at at time. juries. quorums, minions. .
07:17:59 pm

or you can have them come to new york for a day of brainstorm. don't public good
them, they are monsters. no africa. climate. pandemics polio. . temp bandaids. no
new thinking.

07:19:18 pm

oo

I am done w public good. Period.

Only for profit.

07:25:15 pm

Wasted decade of my life. Had to do it to learn I guess

07:25:52 pm

I know

SLOW LEARNER

07:27:08 pm

They are interested in "brain performance"

07:27:32 pm

its not a machine, start there. . giving it one chemical is likely to produce many
consequences . some good some not

07:28:40 pm

oo

I know

07:29:04 pm

yes you can give someone meth. but short term benefit. long term disaster. these
neutriceutiaals is 21 first century blood letting

07:29:36 pm

o

I like electricity

07:30:23 pm

Vagal nerve stimulation etc

07:30:43 pm

Way better

07:30:46 pm

19th century idea. . first the spirit, then magnetism then electric, then
mechanical then quantum then computing. al the same . no whre

07:32:08 pm

o

I think the future may be in light

07:32:38 pm

I know that sounds crazy

07:32:43 pm

For plants that's it

07:32:53 pm

(Plus water and. Basic nutrients)

07:33:07 pm

But light is toxic to roots

07:33:20 pm

Hence

07:33:25 pm

Ontogenetics sort of on track
Selective light manipulation

07:33:48 pm

its not ONE THING. a robust system does not respond one input, light is energy, ,
you should think more of the statistical. . pressure. . temp.

07:33:51 pm

Channels

07:33:51 pm

That is true but there are some big limiting reagents

07:34:12 pm

think of a statistccal parameter NOT a single agent.

07:34:22 pm

got to run more later
