Don't know what else to do

Listen
08:49:54 pm

I did. He said he spoke to Larry.

1. Contractor 6 months 150k plus COBRA or whatever reimbursement.
2. Can't do anything to a university because the [REDACTED] work is proprietary and confidential and bill asked for 6 months of my brain and my time. "He doesn't want to share your brain."
3. Larry agreed to allow me 20% time for "self exploration"
4. Can work out of anywhere on earth I want.
5. The foundation is not making investments in neuro. Bgc3 would not offer institutional funding as it doesn't do grants.

09:00:15 pm

Start a Monday

09:00:19 pm

My sense is that if I do a good job at the end of 6 months can ask bill. And they will want me to leave anyway.

09:00:53 pm

Haven't Heard back from bill but he's not back from London

09:01:47 pm

Google health just called and left me a voicemail. "Open to conversations and ideas"

It's the team within GOOGLE and not the ones that are separate biz. They are based in Seattle and NYC.

09:10:10 pm

They want to talk Monday

09:10:17 pm

Cool

Bill told them to quit screwing around and get me settled. Here's the contract.

your contract is standard , makes no sense after that other email . in essence paying you a severance . of another 150. thats all it does.

It says everything I learn do or think belongs to them in perpetuity so if I ever do alz work it belongs to them?

01:49:22 pm

Not sure I can do much different

01:50:00 pm

Will try to make lemonade from lemons

01:50:34 pm

And start moving on quickly

02:15:13 pm

Other alternative is before signing : never start and ask them to instead pay boyden or nyu

02:38:23 pm

And just start sooner back in the real world

02:39:21 pm

Would have to tell bill it's just too hard and not best use of anyone's time
