Beyond envisioning the most incredible island home in the world, we never started as you were waiting on approvals on what you could do. We are ready when you are.

02:42:36 pm

I thought you had sent some images . I may have misremembered

02:43:17 pm

I am not sure but something like this would be epic.

There are two large firms that are making sketches on their dime. Resort experience. If you would like to submit an idea -great , if not -I understand you might not like the idea

That's cool. We are not a large firm and I can only work on a few select projects at a time for clients who know that we can deliver things that no one else can. When your ready for something beyond your wildest dreams let me know as I would love to work together.
