Oh wow i love that chinese saying!! So glad that you remind me of that, I always try to live by that saying! I love to experience and experiment, I'm so hungry at life and i Love to Walk on the wild side so to speak haha, but yes youre right, i got caught up in a destructive behavior and partly hanging out with bad influenses, and I was aware of that but did it amyway because i felt that I had contol but obviosly I hadn't. But i am really happy about my sitoation at the moment cause i just moved in with my 5 best friends here and they have been with me from the beginning. My best friend [REDACTED] is two years older than me and she has been in my situation before but now she is super healthy and not in that place anymore, we are very similar in many ways and she is like the big sister I never had, and inspiring me alot! We are like s family now, kind of like the gang in Friends, but a little more liberal mabye. A while ago i thought a had to move somewhere else but now i feel so much better cause i've climbed up from the hole I was in I feel like I dont want to run away. At least not yet haha, i've made some great changes, exept my job, I hate it, and all the bad influenses are there. I want to evolve as a person.

Wow I didn't know you worked with that TO Daniel, that seriosely SO amazing. Youre life are my inspiration actually, travel, meet with different people and hear their stories, learn and help people, work with fashion/film/music. I'm so excited to hear more and learn more from you!! You are goals haha I'm serious.
