Also [REDACTED] wants to do a victim briefing in the upcoming weeks. I have a 11am call with hq about that and the case. I will keep you posted. I have basically been living at C20.

[REDACTED] I'm not sure if this would be a weekly item - but I'm working the Epstein case. We have the 1800 number and are receiving a lot of calls. I am also going to work on getting a questionnaire on the FBI website so victims can submit if they are not comfortable calling in. If you have any questions let me know.

Also fyi chapo is getting sentenced next Wednesday and one of the victims is making a victim impact statement. It's in the news saying victim of murder conspiracy speaking at sentencing.

Have a great weekend!

Anything for the weekly?

I'm already tracking SWAT C13 and FTOC, ERT C-16 assist and various SE items, anything else significant, let me know.

I'll be TDY in Philadelphia next week. Jess Huckemeyer is covering the squad in my absence. I am hoping to be back the following week but that is TBD right now.

Have a good weekend.
