Subject: what about this?

Please know this will get scrutinized and also be used a very rigid "workplan".

Focus areas:

digital health security

neurotechnologies and brain science

Scope of work

Identify experts, evaluate data, explore policy/regulatory implications and build from existing recommendations towards deliverables (Deliverable: Digital health security)

- blueprint for a zero knowledge proof based digital system to secure personal health information providing privacy but also access to digitally redacted personal information.

- learning session(s) with cybersecurity and blockchain experts

- complete digital platform for the Strain simulation exercise

(Neurotechnologies and brain science)

- whitepaper on neural substrates for chronic and degenerative disease

- domestic and/or international travel related to efforts

reliance on Gates team expertise wherever relevant

analytical and administrative support

Partners and Immediate Advisory Support

Individuals

- Manoj Nilekani (and team/Aadhaar), Geoff Ling (DARPA), Paul Greengard (Nobel Laureate, Rockefeller), Linda Buck (Nobel Laureate, Fred Hutchinson Cancer Center), Yann LeCun (convolutional nets, Facebook), Todd Park (former CTO of the USA)

(Other) Institutions

- World Economic Forum Global Future Council on Blockchain, WEF Global Future Council on Neurotechnology and Brain Science, Lauder Foundation, Mayo Clinic, Kaiser Permanente, Stanford (Shenoy Lab), Caltech (Koch Lab)
