1. When was Epstein taken off suicide watch?
2. How long was he on suicide watch?
3. What unit in the jail was he housed?
4. Was he by himself?
5. What's protocol for watching him at 6:30 in the morning? And in general during a 24 hour period?
6. Is there an internal investigation? Are the guard(s) and/or supervisors placed on modified duty/or some sort of restricted duty while there is an ongoing
7. Are there surveillance cameras? If so what do they show?
8. What did he use to hang himself?

Please see the message from [REDACTED] below that of the AUSA. It looks accurate, but she inadvertently wrote "EPSTEIN'S cell mate reported threatened to kill him..." It should have been "reportedly" or, more accurately "EPSTEIN reported his cellmate previously threatened to kill him."

We just received the below from USMS. Is the detail about the noose accurate? Do you have any additional information or reports you can provide?

Below is the definition of Psychological Observation provided by [REDACTED], Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

**DEFINITION:** A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate [REDACTED]. [REDACTED] [REDACTED] pleaded guilty in March to mailing improvised explosive devices to 13 people, including many prominent Democratic figures, among them former President Barack Obama, former

Hello,

Epstein is pending a Code 228, Tattooing or Self-Mutilation and I spoke with [REDACTED] who indicated that most likely he will be found competent because he is not mentally ill. We have supporting memorandums from the responding officers who indicated they observed inmate Epstein with a makeshift noose around his neck. Therefore, he will be pending a UDC hearing. Should he return to SHU, he will be housed with [REDACTED]. [REDACTED] is a [REDACTED] White Male. He is a Pretrial inmate on a Supervised Release Violation for Failure to Register as Sex Offender. He is refusing to go to general population.

The other inmates in SHU were reviewed for a possible cell mate, however, [REDACTED] and [REDACTED], were determined the appropriate candidates as cell mates. However, [REDACTED] releases on July 26, 2019. He is also the current cell mate of [REDACTED].

Below is the definition of Psychological Observation provided by [REDACTED], Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

**DEFINITION:** A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore is inappropriate to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate [REDACTED]. [REDACTED] pleaded guilty in March to mailing improvised explosive devices to 13 people, including many prominent Democratic figures, among them former President Barack Obama, former Vice President Joe Biden, former Secretary of State Hillary Clinton and Sens. Cory Booker ([REDACTED]) and Kamala D. Harris (Calif.), as well as CNN. He drove around in a van festooned with political stickers and rants, one of them targeting CNN. His case has been highly publicized and he is in SHU because he requested Protective Custody.

Hello,

Epstein is pending a Code 228, Tattooing or Self-Mutilation and I spoke with [REDACTED] who indicated that most likely he will be found competent because he is not mentally ill. We have supporting memorandums from the responding officers who indicated they observed inmate Epstein with a makeshift noose around his neck. Therefore, he will be pending a UDC hearing. Should he return to SHU, he will be housed with [REDACTED] [REDACTED]. Inmate Hoy [REDACTED] Page 54 of 626. Inmate Hoy is a 54-year-old White Male. He is a Pretrial inmate on a Supervised Release Violation for Failure to Register as Sex Offender. He is refusing to go to general population. Withheld pursuant to exemption

of the Freedom of Information and Privacy Act

The other inmates in SHU were reviewed for a possible cell mate, however, [REDACTED] and [REDACTED] [REDACTED], were determined the appropriate candidates as cell mates. However, [REDACTED] releases on July 26, 2019. He is also the current cell mate of [REDACTED].

We are still reviewing cases in the general population for a possible cell mate.

If I haven't addressed your questions, please call me and let me know. Thanks.

Below is the definition of Psychological Observation provided by [REDACTED], Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

**DEFINITION:** A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate [REDACTED]. [REDACTED] pleaded guilty in March to mailing improvised explosive devices to 13 people, including many prominent Democratic figures, among them former President Barack Obama, former Vice President Joe Biden, former Secretary of State Hillary Clinton and Sens. Cory Booker (N.J.) and Kamala D. Harris (Calif.), as well as CNN. He drove around in a van festooned with political stickers and rants, one of them targeting CNN. His case has been highly publicized and he is in SHU because he requested Protective Custody. Withheld pursuant to exemption of the Freedom of Information and Privacy Act

Hi, I know you are busy. Following up on this. Also wondering about a few details I see out there:

was this already known? In addition, the jail had transferred his cellmate and allowed Mr. Epstein to be housed alone in a cell just two weeks after he had been taken off suicide watch, a decision that also violated the jail's normal procedure, two officials said.

1. When was Epstein taken off suicide watch?
2. How long was he on suicide watch?
3. What unit in the jail was he housed?
4. Was he by himself?
5. What's protocol for watching him at 6:30 in the morning? And in general during a 24 hour period?
6. Is there an internal investigation? Are the guard(s) and/or supervisors placed on modified duty/or some sort of restricted duty while there is an ongoing investigation?
7. Are there surveillance cameras? If so what do they show?
8. What did he use to hang himself?

Below is the definition of Psychological Observation provided by [REDACTED], Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

**DEFINITION:** A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate [REDACTED]. Please see the message from [REDACTED] below that of the AUSA. It looks accurate, but she inadvertently wrote "EPSTEIN'S cell mate reported threatened to kill him..." It should have been "reportedly" or, more accurately 'EPSTEIN reported his cellmate previously threatened to kill him."

We just received the below from USMS. Is the detail about the noose accurate? Do you have any additional information or reports you can provide?

Thanks,

Hello,

Epstein is pending a Code 228, Tattooing or Self-Mutilation and I spoke with [REDACTED] who indicated that most likely he will be found competent because he is not mentally ill. We have supporting memorandums from the responding officers who indicated they observed inmate Epstein with a makeshift noose around his neck. Therefore, he will be pending a UDC hearing. Should he return to SHU, he will be housed with [REDACTED]. [REDACTED] is a [REDACTED] White Male. He is a Pretrial inmate on a Supervised Release Violation for Failure to Register as Sex Offender. He is refusing to go to general population.

The other inmates in SHU were reviewed for a possible cell mate, however, [REDACTED] and [REDACTED], were determined the appropriate candidates as cell mates. However, [REDACTED] releases on July 26, 2019. He is also the current cell mate of [REDACTED].

We are still reviewing cases in the general population for a possible cell mate.

If I haven't addressed your questions, please call me <sup>Page 108 of 626</sup> and let me know. Thanks.

Below is the definition of Psychological Observation provided by [REDACTED], Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

**DEFINITION:** A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug

SDNY\_00014490

intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate [REDACTED]. [REDACTED] pleaded guilty in March to mailing improvised explosive devices to 13 people, including many prominent Democratic figures, among them former President Barack Obama, former Vice President Joe Biden, former Secretary of State Hillary Clinton and Sens. Cory Booker ( [REDACTED] ) and Kamala D. Harris (Calif.), as well as CNN. He drove around in a van festooned with political stickers and rants, one of them targeting CNN. His case has been highly publicized and he is in SHU because he requested Protective Custody.

On July 23, 2019 at approx. 1:27 a.m., a call for assistance on the Special Housing Unit was announced by the Control Center. Upon my arrival I was informed that an inmate had attempted suicide and proceeded to cell, Z05-124LAD. I observed inmate Epstein, Jeffrey #76318-054 lying in the fetal position on the floor of his cell wearing a t-shirt and boxers. He was breathing heavily and was snoring. I called out to inmate Epstein and observed him flicker his eyes and continue snoring. His neck was red with no abrasions. I observed no further injuries to his person. An attempt was made to get the inmate to stand on his own with negative results. The inmate was placed in hand restraints and staff was directed to retrieve the stretcher. As inmate Epstein was being placed on the stretcher by responding staff, he would open his eyes and observe staff. When staff made eye contact with him, he would hurriedly shut his eyes. The inmate was taken to HA-Unit, dressed in the suicide smock and placed on suicide watch. Upon the arrival of medical staff, inmate Epstein was examined and treated by MTCY A. A circular line of erythema at the base of the neck, one section on the front with marks of friction and a small erythema on his left knee.

**MEMORANDUM FOR ALL CONCERNED**

**FROM:** [REDACTED] Operations Lieutenant

**SUBJECT:** Possible Suicide Attempt

On July 23, 2019 at approx. 1:27 a.m., a call for assistance on the Special Housing Unit was announced by the Control Center. Upon my arrival I was informed that an inmate had attempted suicide and proceeded to cell, Z05-124LAD. I observed inmate Epstein, Jeffrey #76318-054 lying in the fetal position on the floor of his cell wearing a t-shirt and boxers. He was breathing heavily and was snoring. I called out to inmate Epstein and observed him flicker his eyes and continue snoring. His neck was red with no abrasions. I observed no further injuries to his person. An attempt was made to get the inmate to stand on his own with negative results. The inmate was placed in hand restraints and staff was directed to retrieve the stretcher. As inmate Epstein was being placed on the stretcher by responding staff, he would open his eyes and observe staff. When staff made eye contact with him, he would hurriedly shut his eyes. The inmate was taken to HA-Unit, dressed in the suicide smock and placed on suicide watch. While awaiting the arrival of an inmate companion, inmate Epstein sat on the edge of the bed and began moving forward as if he was attempting to fall over head first. When I looked away, he straightened up. As I turned to look at him again, he attempted the same act. I laid him down on the bed and directed him to cease his action or he would be placed in restraints for his safety. At that moment, he stated, "Okay, I won't do it again," and gave the thumbs up. Because of his unpredictable behavior, the decision was made to have a staff member observe inmate Epstein. I left HA-Unit in order to make staff notifications. Moments later, I spoke with Officer Clarke who stated that inmate Epstein was alert and had indicated that his cellmate, [REDACTED] had attempted to kill him and had been harassing him. He stated that the inmate had indicated that he'd informed his attorney of this matter.

I photographed and spoke with inmate [REDACTED] who stated that he was asleep with his headphones on when he felt something hit his legs and said, "Jeff, what you're doing?" He didn't answer, so he got up, turned on the light and saw him with a string around his neck. He stated that he then called the guards and

they ran down. Upon further questioning, inmate ██████ stated that he sleeps on the bottom bunk, but gave it to inmate Epstein because he's old. He stated that he sleeps on the floor on a mattress. He stated that when he got up, he couldn't remember if he sat up or stood up to check on Epstein. He stated that Epstein was sitting on the floor leaning to the side with his eyes opened, but wasn't responding. He stated that the last time he saw him he was snoring really loud.

Inmate Epstein stated that he came in from a legal visit at approx. 8:00PM and staff handed him a copy of the Daily News. "█████" was on the floor reading the Daily News. He stated that he had given it to him. He stated that ██████ mentioned that he'd been in court all day in Westchester and was carrying on. At that point, inmate ██████ paused as if he was making the story up as he went along, and stated that ██████ stated, "These fucking niggers. This place is inhumane, I wish I could report it. Silva(Officer), that nigger hobbit mother fucker." He then turned to a page in the Daily News that had his picture on it and stated that Epstein was worth seventy seven million dollars. Epstein stated that he took his picture, balled it up and threw it in the garbage. I asked inmate Epstein what happened prior to staff's arrival. He stated that at approx. 1:00 AM, he'd gotten up to get a drink of water, as he gets up every thirty minutes. He remember walking back to his bunk and waking up with staff there in his cell. I asked if he'd waken up and seen staff, why didn't he respond when we were calling out to him? He stated that he only remembered hearing himself making a noise like snoring. When asked about the allegations against his cellmate, he stated that he was told, if he hurt him, staff wouldn't care.

Duty medical, ██████ was notified and briefed. <sup>Page 116 of 626</sup> It was determined no further medical attention was needed. <sup>Withheld pursuant to exemption</sup> A medical assessment was not conducted at the time of this incident, due to the fact, there was no medical staff available after 10:00 PM.

of the Freedom of Information and Privacy Act

Upon the arrival of medical staff, inmate Epstein was examined and treated by, MLP ██████ for a circular line of erythema at the base of the neck, one section on the front with marks of friction and a small erythema on his left knee.

Good morning: Same presentation today, but he said he thinks his memory for the incident (injury to his neck) may be impaired because of his sleep apnea. He is supposed to get his CPAP machine today. He is aware he will be returning to SHU, but said he is feeling unwell due to his inability to sleep and numbness in his arm. He requested to have one good night of sleep with his CPAP and will return to SHU with a cellmate tomorrow. He then asked if he could remain down here where it is "safe" for the entire week. I told him he can stay down one more night to receive his CPAP and a good night's sleep, but that he would be returned to SHU tomorrow. It was explained that there is no mental health issues precluding him from returning to SHU tomorrow and that we could not house him in the SW/Hospital area because he felt safe or more comfortable for him. It was explained to him that he would be placed in a safe situation in the SHU. He will remain on psychological observation today and will transition to the SHU tomorrow. Thank you, [REDACTED]

Inmate Epstein seems psychologically stable.

He complained that his right arm was numb and hanging earlier. Nurse [REDACTED] saw him.

He again said his right arm still feels somewhat numb and he said he cannot make a fist with that hand. He also said he has numbness on his neck. I informed Nurse [REDACTED].

He stated the toilet in his cell was running for 45 minutes last night and he could not take the noise. He is going to try the toilet before going to legal today and if it does not shut off, he will be moved to another cell.

Hello,

Epstein is pending a Code 228, Tattooing or Self-Mutilation and I spoke with [REDACTED] who indicated that most likely he will be found competent because he is not mentally ill. We have supporting memorandums from the responding officers who indicated they observed inmate Epstein with a makeshift noose around his neck. Therefore, he will be pending a UDC hearing. Should he return to SHU, he will be housed with [REDACTED]. [REDACTED] is a [REDACTED] White Male. He is a Pretrial inmate on a Supervised Release Violation for Failure to Register as Sex Offender. He is refusing to go to general population.

The other inmates in SHU were reviewed for a possible cell mate, however, [REDACTED] and [REDACTED], were determined the appropriate candidates as cell mates. However, [REDACTED] releases on July 26, 2019. He is also the current cell mate of [REDACTED].

We are still reviewing cases in the general population for a possible cell mate.

Below is the definition of Psychological Observation provided by [REDACTED], Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

**DEFINITION:** A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental health), or drug use.

SDNY 00014544 or drug

serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate [REDACTED]. [REDACTED] pleaded guilty in March to mailing improvised explosive devices to 13 people, including many prominent Democratic figures, among them former President Barack Obama, former Vice President Joe Biden, former Secretary of State Hillary Clinton and Sens. Cory Booker ([REDACTED]) and Kamala D. Harris (Calif.), as well as CNN. He drove around in a van festooned with political stickers and rants, one of them targeting CNN. His case has been highly publicized and he is in SHU because he requested Protective Custody.

Good morning: Same presentation today, but he said he thinks his memory for the incident (injury to his neck) may be impaired because of his sleep apnea. He is supposed to get his CPAP machine today. He is aware he will be returning to SHU, but said he is feeling unwell due to his inability to sleep and numbness in his arm. He requested to have one good night of sleep with his CPAP and will return to SHU with a cellmate tomorrow. He then asked if he could remain down here where it is "safe" for the entire week. I told him he can stay down one more night to receive his CPAP and a good night's sleep, but that he would be returned to SHU tomorrow. It was explained that there is no mental health issues precluding him from returning to SHU tomorrow and that we could not house him in the SW/Hospital area because he felt safe or more comfortable for him. It was explained to him that he would be placed in a safe situation in the SHU. He will remain on psychological observation today and will transition to the SHU tomorrow. Thank you, [REDACTED]

Inmate Epstein seems psychologically stable.

He complained that his right arm was numb and hanging earlier. Nurse [REDACTED] saw him.

He again said his right arm still feels somewhat numb and he said he cannot make a fist with that hand. He also said he has numbness on his neck. I informed Nurse [REDACTED].

He stated the toilet in his cell was running for 45 minutes last night and he could not take the noise. He is going to try the toilet before going to legal today and if it does not shut off, he will be moved to another cell.

Hello,

Epstein is pending a Code 228, Tattooing or Self-Mutilation and I spoke with [REDACTED] who indicated that most likely he will be found competent because he is not mentally ill. We have supporting memorandums from the responding officers who indicated they observed inmate Epstein with a makeshift noose around his neck. Therefore, he will be pending a UDC hearing. Should he return to SHU, he will be housed with [REDACTED]. [REDACTED] is a [REDACTED] White Male. He is a Pretrial inmate on a Supervised Release Violation for Failure to Register as Sex Offender. He is refusing to go to general population.

The other inmates in SHU were reviewed for a possible cell mate, however, [REDACTED] and [REDACTED] [REDACTED], were determined the appropriate candidates as cell mates. However, [REDACTED] releases on July 26, 2019. He is also the current cell mate of [REDACTED].

We are still reviewing cases in the general population for a possible cell mate.

If I haven't addressed your questions, please call me and let me know. Thanks.

Below is the definition of Psychological Observation provided by [REDACTED], Chief Psychologist. He will remain on Psychological Observation until tomorrow, where he will be reassessed.

Withheld pursuant to exemption

**DEFINITION:** A Psychological Observation occurs when an inmate who suffers from a mental illness, a serious personality disorder, a medical problem (impairing their mental status), or drug intoxication and/or withdrawal symptoms begins to deteriorate. The inmate is no longer mentally stable and therefore, it is inappropriate for s/he to remain in general population or the Special Housing Unit (SHU). Inmates placed on psychological observation differ from inmates placed on suicide watch as they are not imminently suicidal (e.g., have not expressed self-harm or engaged in self-harming behavior), but rather, due to his/her impairment in mental status or functioning (e.g., not eating, not sleeping, disorganized/unusual thinking, poor self-care), his/her behavior can be unpredictable. Psychological Observation status is intended as a temporary designation to be utilized until such time as the inmate becomes sufficiently stable (e.g., able to function independently in general population) to be returned to his/her housing assignment or transferred to an inpatient psychiatric facility such as a Federal Medical Center.

He has a pending incident report for Self-Mutilation and therefore, he will return to the Special Housing Unit (SHU) and will be celled with inmate [REDACTED]. [REDACTED] pleaded guilty in March to mailing improvised explosive devices to 13 people, including many prominent Democratic figures, among them former President Barack Obama, former Vice President Joe Biden, former Secretary of State Hillary Clinton and Sens. Cory Booker ([REDACTED]) and Kamala D. Harris (Calif.), as well as CNN. He drove around in a van festooned with political stickers and rants, one of them targeting CNN. His case has been highly publicized and he is in SHU because he requested Protective Custody.
