---

Thanks... [REDACTED]  
[REDACTED]

I reaffirmed with him the government's position that his brother's death was a suicide and that anyone sending him info and requesting money for the contrary was a scam and he should ignore it. If pressed, you can continue to reaffirm this message.

Boss,

I was able to ID that the email threat to Mark Epstein originated from Iran from the IP addresses from the log [REDACTED] The text messages are from VoIP so I will need to send GJ Subpoenas to obtain further information on subscriber or IP addresses from the messages.

Epstein is starting to send emails regarding people having information on his brother's death. [REDACTED]

Also his phone number and email are easily obtainable through a simple google search, with this new documentary series on his brother Netflix I expect that he will be getting more and more messages. [REDACTED]
