Subject: [EXTERNAL EMAIL] - Jeffrey Epstein

Hi,
Hope all is well.

I have been speaking to [REDACTED] from the DOJ who told me a few months ago that they reopened the investigation about JE's death. This week he told me that there were not investigating the death but were investigating the circumstances in the prison that allowed this to happen. He said that the FBI was in charge of the investigation into the death itself. I have still not been able to find out what position JE's body was in when first found dead in the cell. [REDACTED] was the guard who first discovered JE's body. Is there any way to question him about what he saw. It is two and half years after the death, and to not have an answer to this simple question is beyond unreasonable. Who in the FBI is in charge of this!!!

Thanks,
