How do/did you feel about the sit as a whole

It has affected my life greatly

False sense of love @ the time

They seem to be the only people who
care about you

seem to be family cause I didn't have one
in my early 20's I realized how the abuse
how affected me...

Personal, Professional ~~downsides~~ were affected
my Anxiety + Depression comes in waves
my ex told me that he would be
happy to help because it messed up
our relationship for 7 years
affected Trust issues, opening up ^{love, values} in relationships

J&G joked about my mother not being
smart and didn't care about me
and wasn't a good mother... and
I believed them and how they
show me how life worked...

J&G thought I was grateful for how
he helped me in life

when you get broken into
submission some times you
just start to believe that
how life is ... and seeing
everyone else around then doing the
same thing

I did feel as though I held
a sexual value to them, but
I thought they also liked / cared
about me

he let me know that I
needed to be grateful for
all he had done for me
and the lessons he paid for ..

Both GM & JE ~~was~~ would make me
feel that I had to be grateful for
what they do for me... but mostly JE

over time I realized the relationship was
not what I thought it was
The crazy BF I had eventually helped
me to realize the situation was not
right -> ~ 2002

Darren, JE's lawyer calls
 me + says that I owe \$10,000
 for Apt my mom subletted
 my BF tells me to ignore JE.
 " " Thought he was my godfather

when I heard about his initial arrest
 I felt alone and horrible...
 I heard it was a ton of girls
 involved, I felt guilty I didn't say anything

around this time I had a convo w/
 my sister about it. She may have
 called me when it was on news...

She said she should have known. She's angry
 Not sure if she asked me questions about
 it but she wanted to do
 something about it

I felt it would have been a pointless uphill battle.

This convo w/ my sister helped me to
 understand how I was abused/the situation

It affected me greatly and my relationship
 w/ my family. I still have to wait
 through things

affected relationships w/ my mother
 greatly... has gotten worse over years
 now having kids + its worse w/ my mother
 I think my mother is damaged
 I wonder if she was abused herself

When I was a kid, think my
 mom wants her kids to be
 special + great
 she pushed that idea on us sometimes
 not sure if we all got into Stan Biz
 because she wanted us to be famous
 my father was famous in Sweden
 she wanted us to special + famous for her
 This may have affected how she viewed SE
 she says always be grateful to SE
 He wants to hang out w/ you for a
 reason

as SE's conduct got worse /seriously I didn't
 have a sense that I could tell
 anyone.

Mom is middle eastern taught that
 we are supposed to do what we
 told as a woman, even if they are
 beating you.. I felt I couldn't say
 anything

My brother reminds me recently that when I was 13 mom smacked my to telling my guidance counselor about my father

First instance seriously w/ JF I completely froze - he went about his business like uterms like everything was normal... I thought I couldn't tell anyone... I had to burr it.

It was horriog but they normalized everything so it was ok, Em helped a lot w/ that... This is just what people do

Right away Em took on this sisterly roll - "I'm like your big sister" She made it all normal

We would have conv's... She would tease me about boys @ school, she takes me bra shopping - She says once you have a guy once they are "Grandfathered in" it was like "Cheeky big sister wisdom"

@ first I thought they were a couple - Then I thought they were married - Then

an assistant ... Their relationship was
sometimes unclear ...

Some of the "grooming process" w/ them
happened prior to when sex happened ...
Bra shopping, going to movies, hanging out by pool
She was topless by pool, ^{she} made it normal

↓
first time I was 14 yo ... other girls (like the
me) were also topless by pool

Movie's was in WLB or PB ... close drive from
JE's house

was a normal movie theater ... would go to another

↓ Shows - somewhat empty, around 5 pm

There were not nice theaters

Something other girls come ... ^{They} wouldn't buy candy or
popcorn, JE was very careful w/ his diet

Pushed that idea on us

I knew I couldn't ask because he felt should people

Don't remember how they bought tickets ... He may have

had the house manager go prior to

buy tickets ... I have memory

of JE handing out tickets prior

to going in.

There were no couches in movies

I would not sit right next to JE
JE would decide where we would sit.

first incident
at house

Next incident

either his bedroom or messager Room.

Some period of time when it was just me
& JE

After time GM got involved. not sure
exactly what point she came in

There was GM, ~~was~~ 2 other girls & JE
(the first time GM got involved) it
it was very casual

would join

first instance GM guided it ~~was~~ but
other girls knew the routine

Sometimes JE would Request a marriage and say
You girls come w/ me

8
Sometimes girls would make out,
while

average incident... go up to his message Rn
he takes a shower, or just take
a shower... he would be undressed...
+ gets on message table... some
girls would be talking, or laughing
it was casual... early on they didn't
really talk to me... I would start
w/ foot massaging duty... I wanted
them to ignore me... GM would
make out w/ other girls... or touch
other girls...

GM ... teasing other girls... giggles... grabbing
another girls breasts...
or tell another girl to get out of
of him...

She was bossy... just would tell
them what to do

She felt she had a big place in there...
Power couple dynamic... You just
do what you're told

You take all your clothes off except
the underwear @ first... just
throw clothes on ground
