

This case is being handled by the Office's Public Corruption Unit. Assistant U.S. Attorneys [REDACTED] [REDACTED] are in charge of the prosecution.

Respected Attorneys:

PLEASE try to get Ghislaine Maxwell to give information on the former Gov. of US Virgin Islands, John DeJongh, who facilitated Jeffrey Epstein's construction and USE of his private Little St James Island. And about his wife, Cecile DeJongh, who managed Epstein's business front in St Thomas, VI for 20 years.

If we local inhabitants of St Thomas knew or thought we knew about what was going on, how could politicians who signed permits, who were aware of how Jeffrey E entered and left the STT Airport, though his own private exit, and WHO traveled with him, how could our Senators not know?

Our island is small, people know everyone's business, people gossip. The first rumours were started by local men who worked on the construction of the island mansion. Airport handlers and employees were aware of Epstein's facilitated access. Nobody was blind about his traveling companions.

Besides a good paycheck, what kind of business did Mrs. DeJongh actually oversee at Jeffrey's STT Office front that would keep her on retainer for 20 years?

This is not a hate letter against the DeJonghs.. But it is about our corrupt, non-functioning legislators who only know how to line their own pockets with Federal funds that travel much further than overstuffed inept department employees whose only professional qualifications are 'extended family'.

We follow the Epstein and now Maxwell cases because we are hoping some hard truths will come to light, enough to scare current politicians from continuing the same old same old and getting away with it. Tons of Federal monies come here, but they disappear on the way to intended projects that never get done, just revised again and again by 'consultants'

We would also like to know who gave the order to the FBI to turn around mid-flight when they were coming to arrest DeJongh? Was it a lobbyist? Was it a favor called in? Or was it just gossip on a small island that spreads faster than our never-works phone company and power-always-off utility company.

We'd like you to follow the money, as they say. (Oh, and they are 4 years behind processing our 1040 and paying our refunds due).

Please help! Our 'helpers & protectors' are too involved and too busy helping their own selves first.
