All sounds good!

I was planning to do my upgrade today but have a question. How long will I be down for during the upgrade? Do I need to sit and watch because there are things I will need to click on or is that only at the beginning of the initial install? Any hiccups I should know about before diving in?

Okay, thanks.

FedEX is annoying me by holding the machine in Jersey rather than deliver it early (scheduled for Friday). Grr.

I'm waiting for a new client to lock down dates for an install next week, but once I hear from them I'll synch with Merwin.

How'd the home upgrade go?

Hi Lesley,

Jeffrey is having me upgrade the iMac on the fifth floor @ 71st. Do you know if/when he's in town next week?

I'd rather not invade his space, this isn't an urgent install.

Thank you,

 James Ce, your Personal Genius,
