Good morning,

I have attached a questionnaire to this email for the patient to ***please complete prior to his appointment and bring with him*** to his consultation with Dr. Rawlins on October 27, 2015 at 9:15A along with any relevant radiology imaging and reports related to his spinal issue.

I do need to know the following information prior to the appointment:

- Leg or arm pain? How long?
- Injections? How many?
- Pain medication the patient is taking and if he is pain management.

We are located at [REDACTED] in the 2<sup>nd</sup> Floor in-between York Avenue and the East River.

Thank you,

**BRIANNA DOYLE**  
Surgical Coordinator  
Dr. Bernard A. Rawlins

[REDACTED]
