Hi Lesley,

Just to tell you that we are back in Israel. We left the appartment quite tidy (I hope), but it would be appreciable if Tess could come to change the linen and throw garbage and provisions from the fridge that will not hold till we will be back (approximately August 25). Both of us like to be there, in the appartment and outside. The neighborhood is great. we learn how to get along as a young couple, which we have never experienced..

Concerning the safe - in fact, there is a key missing. We didn't allow to force the safe open but to order a key (they have the serial number), so it can be used in the future. Mervin is up dated and he will hold the key when it gets in from the manufacturer.

I bought few missing kitchen aids, most importantly - A Nespresso machine! No more Starbucks. I hope future tenants will enjoy it as much as we do.

thank you again,

warm regards,

Nili
