Yes, sorry Larry...Darren has requested I look back through emails and my itineraries to see when there have been plane issues that have caused Jeffrey to delay his departure from NY for a day or two in 2015...I don't have a lot of useful emails on this...I was thinking if Darren needs proof/validation of plane issues, that this would be something you probably have (i.e.: change of a flight time/day with flight control, maintenance invoices, etc)...lets wait to see if this is something Darren would like you to do first...no need to try and dig stuff up now...I know you are flying JE all around the West coast now ;)

I can pull a few emails where something is possibly mentioned about plane problems, but what he has may be more pertinent...?
