The Stockholm School of Economics will no longer recognize and support the BBB's...Barbro says she is Incorporating a company herself to continue the BBB's ...after 40 years she will not let this die...she will be looking for a super smart person to run this. She says the school will do one more Female Economist of the Year and then that is it... Barbro says the school is being idiots...but It is what it is...

Barbro will be in NY over the next 2 weeks and is asking if you will be around...she would love to see you.
