So the good news is that I found the modem from [REDACTED], I've connected it and it is working great (no need to buy a replacement).

The bad news is that the new modem for 10N is still at 71st Street, so I couldn't hook up [REDACTED] internet tonight.

Merwin, could you please ask [REDACTED] to take the modem back to her apartment tomorrow? I'll coordinate with her based on her travel schedule a time for me to install it.

Thanks!

James

Why do we need to exchange the modem when we can just put it back to 10N since that's where it belongs?

[REDACTED]/Merwin

Please help to find modem from 11B as it is not efficient for James to visit 301 for 1 apartment only.

Do we know when [REDACTED] is moving back to 10n?

Thank you,

Bella

The modem from 10N that is currently in [REDACTED] is not working. It's provisioned to the 10N account and won't work anywhere else.

[REDACTED] is using the signal from 11B.

I'd like to get the modem exchanged and set up in 10N as soon as we can since she won't be able to use 11B when she's back in 10N.

Anyone else hungry for Alphabits cereal now?

As i understand [Redacted] currently has access to internet. I would not make any changes before she moves back in to 10N. After she moves Jojo will help exchange the old modem from 10N (that is currently in [Redacted]) for the new one at TWC office. Hopefully [Redacted] can find modem from [Redacted], that was installed in November during the move. If we have no success on finding it, Jojo will need to purchase new modem. After will coordinate with James to set up both apartments.

Thank you,
Bella

Since [Redacted] is going to move out of [Redacted] and back into 10N sometime next week, I think we should hold off on buying a replacement modem for [Redacted] quite yet — in may turn up in the move.

In the meantime, we should exchange the black Arris modem that is in currently unplugged in [Redacted] for a modern modem. The bill (with Account #, etc) for 10N is attached (the modem in [Redacted] belongs to that account). Once the toxic work in 10N has completed, I'll set up the new modem in there so it's up and running for when [Redacted] moves back.

On Nov 3rd technician from TWC installed new modem in apt [REDACTED]. [REDACTED], please confirm with the super that building doesn't have it. To order new modem from TWC is \$150. If we are sure the modem walked away i would ask Merwin to purchase new one - will cost less. Apt 10N will be active tomorrow. Merwin, please ask Jojo to exchange modem at TWC office. Please update when we have new equipment and James will assist to install.

Thank you,

Bella

On Feb 6, 2015, at 11:44 AM, james ce | personal genius <[REDACTED]> wrote:

Wifi in 8A is working now. The TWC modem/wifi was replaced, there's no AirPort Basestations at all. I changed the network name and password on the wifi to 8A / bemyguest. It's connecting fast & furious now.

The modem for the TWC account in [REDACTED] is missing. [REDACTED] says it wasn't there when she was moved in -- the power supply for the old modem is on her windowsill. *Any idea who would know what happened to it?*

The modem & AirPort Extreme there are from 10N (I called TWC and confirmed). That account is on seasonal hold until tomorrow so that modem can't be used right now. [REDACTED] is using the signal for 11B so she's okay until she moves back into 10N next week.

The 10N modem is old and will likely be disabled by TWC soon after we reactivate it in 10N. **We should see if we can get them to send us the upgraded modem now**, so as soon as the work is done in the apartment I can install it and have it up and running before [REDACTED] moves back in.

James,
[REDACTED] and [REDACTED] having problems with WIFI, see below details. I am not sure if internet connection is working as well. TWC info for 8A and [REDACTED] attached. Also if 10n is finished you can check wifi and internet connection too, but note that i suspended service in 10n for 1 month till February 8th. Please advise when you are available to help.
