Darren, maybe Larry should set you up with flight alerts for the airplane with Flight Aware...whenever Jeffrey's plane takes off you receive an email with the tail number and time of departure, from which airport and approximate time of arrival and to what airport...you receive another email when the plane is due to land in 45 minutes and then another once the plane lands...perhaps something you would like to have?

Example email:

N212JE (GLF4) departed Teterboro (KTEB) at 08:27PM EST enroute to Cyril E King (TIST/STT) for an estimated arrival at 12:47AM AST
