FURTHER THOUGHTS... after reviewing more data. YOU COULD MAKE THE DIFFERENCE. Last time it was a few thousand votes. You, and a few people you know demonstrating support and encouraging folks to vote can make the difference! You will be very sad if your guy loses by 12 votes and you did nothing about it just now.

The Collin County Arts Center project failed by 12 votes in McKinney a few years ago. I wish we had it. AND, I know I could have gotten 12 people in McKinney to vote for it if I had thought it would be that close.

I will come there and help if you want.

-----.

You should have a reception for him.

It is fun to be somebody.

It could be worth millions for your business to be able to call the governor and explain something about an issue he influences.

The people that politicians respect most are those that have for them a coffee in their home.

I have been to school on this.
